

## Community Immersion Report - CRP

(This format will not be provided to CRPs on the first day. CRPs will record all the information in their notebooks. This format will be given by the Field Coordinator to CRP on the final day to compile their report.)

CRP Name:

Block:

Village:

Field Coordinator's Name:

Work Responsibility Report:

Household Visits:

- CRP will create their own format for the family report.
- Include general components such as livelihood.
- Write about common problems and challenges known by families.

Group Meetings:

- List the names of participants in the meeting.
- Document the topics discussed in the group.
- Write feedback on topics discussed during the meeting.
- Specify the duration of the group meeting.

Advance Team/Front Line Worker (FLW) Meeting:

- FLW information - Name, position, and mobile number.
- Main role of the FLW - What do they do?
- FLW's work area and progress - Who they meet, their reach to families, any challenges they face, and any additional information.

Reports Related to Farmers:

- For the farmer's report, the CRP will create their own format. Include information about the land owned, crops grown, yield, expenses, knowledge about fertilizers and seeds, and more.
- Describe discussions and field visits with farmers, their problems, opportunities, challenges, and solutions.

Market-Related Report:

- How far is the market?
- When and where is the market or the hot market held?
- Number of people gathered in the market.
- What is sold and at what price? Any difference in between the village and the market prices?

- Identify the primary sellers, whether they are farmers or traders.

#### Panchayat Raj Institution Meeting:

- Document all topics and points discussed in the meeting.
- Provide your observations and evaluations of the meeting.

#### Water Resource Report:

- The number of available water resources in the village.
- Community uses of these water resources, such as using ponds for bathing, animal drinking, fish production, and irrigation.
- Describe which water sources farmers use for irrigation.
- Drinking water source.
- How does the village manage dirty or rainwater?
- Any other water-related challenges.

#### Self-Evaluation by the CRP:

- Can you fulfill the CRP's responsibilities?
- Mention which tasks you found easier and more comfortable to perform.
- Highlight tasks that you found challenging, describe?
- Mention any skills or knowledge areas where you feel you need further training or assistance.
- What support do you require to work in your CRP role? Please be specific.
- How long do you need this support?
- Any other information you wish to share?
